TIGERS SLAUGHTERED

BLUES HAD FUN WITH DETROIT IN YESTERDAY'S GAME.

Pitcher Irwin Touched Un for Twenty-two Hits-Single Gets Five Hits in as Many Times Up-Meredith Pitched Good Ball.

Detroit, Mich., July 13.-(Special.) Jimmy Manning's rough riders, fresh from the plains of Missouri, slaughtered the Stallings tribe at Bennett park to-day. The locals fought bravely for awhile, but were repulsed with terrible loss. The rough riders charged fiercely upon General Irwin, who commanded Detroit's only battery, riddling him with shot and projectiles. When he was carried from the gory field of battle it was found that he had exactly twenty-two wounds, four being inflicted by the heavy artillery of the rough riders. It was the finest battle yet waged at Bennett park this year. Irwin received a veritable baptism of fire, the rough rid-ers swatting his delivery for twenty-two hits for a total of twenty-nine bases. The marksmanship of Siagle earned him a promotion, as in five times up he hit the ball cleanly each time. Ganzel did as well for the Stallings tribe, pasting the leather for four joits, one a triple. All of Manning's command, with the exception of Vioa. rattened their batting averages, Viol. fattened their batting averages, Jimmy Williams bagging four hits. One rail Meredith led the forces for Manning and escaped with nine hits and four runs. It was a spectacular game from a batting standpoint, but the cannoniding nearly a came from the rough riders, who dashed madly here and there in their gaudy cowboy suits. Brigader General Manning watched the work of his men with keen pleasure.

Stalling sent Sharrott into center and resumed his place in left. The game was as uneventful as a pink tea until the fourth, when a hit, an out and a double sent in a rough rider. The battle began to grow hot in the fifth, when two gifts, a steal, three pokes and a misplay sent in four runs. a steal, three pokes and a misplay sent in four runs.

The fusitiade was terrific in the seventh. Shot and shrapnel flew all over the field. Connaughton led off with a single. Williams, Wilson, O'Hagan and McVicker dittoed. By way of diversion Vicx flew out and Williams was naited at the plate by a pretty throw by Dungan. Meredith picked off his third hit, and Slagle, for the fourth time, leaned against the ball, lamming out a triple. Frisbee beat out a grounder to Wilson, but was thrown out attempting to steal second, retiring the side. Five

to Wilson, but was thrown out attempting to steal second, retiring the side. Five runs went upon the board. In the eighth Williams soaked the leather safely, and Wilson unfuried a home run to the clubhouse. Hits by Slagic and Frisbee, and Wilson's juggle sent in a pair in the ninth. Detroit took one in the third on two singles and a sacrifice. Another came in the sixth on a free base, a steal, an out and a hit. Dungan's triple and an out tailied a hit.

a hit. Dungan's triple and an out tallied a local in the eighth, and another drifted over in the eighth, and another critted over in the ninth on Ganzel's triple and an outfield out. Slagle scored two runs and landed five hits and received a base on balls. Williams and Meredith hit the ball hard. Manager Manning wired Tuck Turner to-day, asking him to report at once. MAY BUY THE BROWNS.

Frank Robinson, of the Cleveland Club, Will Confer With Von Der Abe To-day and May Buy.

ST. LOUIS, July 13 .- President Frank De Hans Robinson, of the Cleveland baseball club, accompanied by his wife, arrived in St. Louis to-day and spent the afternoon at the ball park. He has an appointment with Von Der Ahe, the present owner of the St. Louis Browns, to-morrow at the Southern hotel, and it is broadly binted in baseball circles that Mr. Robinson's ar-rival on the evening of the coming sale of the St. Louis clab has some significance. Mr. Robinson would not answer a direct question to that effect, but admitted that if the opportunity opened for him to secure control of the club he would not let it

question to that effect, but admitted that if the opportunity opened for him to secure control of the club he would not let it pass. Von Der Ahe to-night stated that the St. Louis franchise had not been sold, despite rumors to the contrary. To-day was the last day that the club could be sold at private sale, and now that Von Der Ahe says it is not sold, it will have to be auctioned off publicly, but not until twenty days' notice have been given.

Following Von Der Ahe's denial of sale of the St. Louis team, President Muckenfus also positively stated to-night that the club had not been sold. "I have been with Von Der Ahe for the nast two days constantly trying to straighten out the club's affairs prior to the sale," said Muckenfuss, "and during that time there has been rothing done toward the disposal of the club. Mr. Edward Becker is very anxious to purchase the franchise and will do his best to succeed, but I have not seen him in the last couple of days. He called on me one day last week at Sportsman park and we held a long conference. He seeried so sure of getting the club that he offered me the presidency of it, but the sale has not yet been made."

The Onio State Journal, published in Wolverton's town, says: There is another third baseman in the Western League who should not be lost sight of, and Williams, of the Kansas City team, is the man. He played shortstop for the St. Joe team last season, where he attracted more attention as a home run hitter than he did as a fielder in his position. Manning triad him at short this spring, but he did not suit in that position, while his first day at third satisfied Manager Manning that it was exactly the place Williams belonged. Williams goes all over the field after fly balls, handles hard hit grounders and bunts with equal case and has the faculty of throwing hard and accurately in any position. He can also connect with the basic is a good bunter, fast on the bases and not afraid to slide. In fact, he is a half player, every inch of him, and there is no doubt but what he is the Jimmy Collins or the Rhody Wallace of the Western League.

SANTA FE BONDS SOLD

SYNDICATE SAID TO HAVE BOUGHT 22 500 000 OF THEM

The Road Can This Year Pay a Dividend of One-fourth Per Cent on Preferred Stock, Which Amounts to \$131,486,000.

NEW YORK, July 12.-According to reports elreplated in Wall struct to-day, a syndicate composed of the Guaranty Trust Company, Kuhn, Loeb & Co. and Snever & Co. has purchased \$3,500,000 of Atchison. Topeka & Santa Fe railroad general mortgage bonds. These bonds were issued to reimburse the treasury of the road of the cash expenditures made, including equipment bonds puld, completion of the Atlantic & Pacific purchase, improvements on the Santa Fe branch since July 1, 1897, and improvement on other lines of the system in the same year.

The price raid for the bonds is not stated but report places the figure at about the present market price of the bonds. The parties interested decline to discuss the PEKA, July 12.-(Special.) The Santa Fe company can this year pay a dividend of one-fourth per cent on the preferred stock if the board of directors sees it to order it. The preferred stock amounts to \$13,48,600. This is the first time in a number of years that the Santa Fe has been in shape to pay a dividend. If the dividend was de-clared it would be a great boom for the

The board of directors is divided, hower, on the question of declaring a divi-nd. Some believe that from a prosperity andpoint it would be the wise thing to b, while others are in favor of reserving do, while others are in favor of reserving the money in case it was needed to pay adjustment bonds next year. They also reach that if next year there was a falling off in business and the company was unable to declare another dividend, the bayment of a dividend this year would tend to injure the company.

There was a time in the history of the Santa Fe when money was borrowed to pay dividends. There was a time not long after that when the Santa Fe went into the hands of receivers. This year the dividend has been earned by business management, which will insure prosperity to the ment, which will insure prosperity to the road as long as it is continued.

FLANDERS CASE DISMISSED.

Judge Pfost Holds He Is Not the Proper Man to He Prosecuted.

The case of the state against G. E. Flanders, a conductor on the Santa Fe road, who was arrested some time ago on the charge of violating a law passed by the last legislature, which provides for the free transportation of shippers of live stock to and from the market, was dismissed yesterday morning by Judge Pfost, of the North side city court, in Kangus City, Kas., The abrupt ending of the suit was a disappointment to the defendant, who was anxious to test the constitutionality of the act. Judge Pfost in dismissing the suit stated that while there was no doubt in his rind that the law had been violated, he did not think Conductor Flanders was the tripper person to present for the offense. proper person to prosecute for the offense. The arrest of Flanders was caused by D. C. Romine, a Burlingame, Kas., stockman, Mr. Romine shipped a carlond of stock to Kansas City from Furlingame last December, and when he attempted to ridle home on his contract Conductor Flanders refused to pass him free of charge. Romine would not tax his fare and as a result he would not pay his fare, and as a result h was ejected from the train at Argentine.

WHY DELAY INVESTIGATION?

County Court Proposes to Defer Action on Charges Against Surveyor Callahan.

County Surveyor Calinhan is in Washington, D. C., having taken advantage of the recent low rates to make an Eastern trip and for that reason did not appear before the county court yesterday to make an explanation of why he happened to approve county work, which, according to Inspecto Joel Chiles' report, was inferior and no according to centract.

One of the judges said yesterday a thor-ough investigation of this and other charges against Surveyor Callahan would be made.

charges against Surveyor Callahan woust be made.

"There is every evidence that inferior work has been approved to such an extent that it will be impossible to estimate the loss until the investigation takes place. It is the purpose of the court to employ a competent man to look into the matter. No long ago a bridge built but one year ago collapsed. There are other things which will be investigated, but it is not now the proper time to present them to the pub-lic.

"The court will not, however, take decided action in the matter until after the Democratic convention. In fact, nothing will be done until after the Democratic county convention."

Just why the county court will stay its investigation until after the Democratic county convention.

Just why the county court will stay its investigation until after the Democratic county convention in the face of the admission that the taxpayers have been swindled either through negligence or otherwise is a political secret. Whether the charges against the surveyor are to be turned to political advantage prior to the county convention remains to be seen. It was stated by court house attaches yesterday that trouble for the surveyor had been brewing for some time. Callahan's friends claim it is due to the fact that the surveyor has contended that from bridges are superior to wooden bridges and cost the county less money.

These old formers have been by the best in the surveyor had the county less money.

Trese old farmers have been in the habit of building wooden bridges for the last quarter of a century," said a friend of the surveyor yesterday. "When from bridges quarter of a century, "said a friend of the surveyor yesterday." "When fron bridges began to take the place of wooden bridges it took the work out of the bands of the road overseers and the members of the family have been great kick-rs ever since. If this bridge had been put up by one of the Chiles clan no objection would have been made."

SALOONS ON THE BOWERY.

The Board of Police Commissioners Allow Two of Them to Reopen.

Breaner & Rabinowitz and Weber & Ashley, whose saloons at Eighteenth and Flora and Eighteenth and Vine streets, respectively, were included in a list of eight "bowery" establishments closed by order of the commissioners a few weeks ago, appeared before the police board yearerday afternoon and succeeded in getting a reconsideration of their applications and per-

consideration of their applications and permission to reopen.

Both firms represented that they had lost money heavily in closing their piaces and that it was aimost impossible to find locations suitable to the police where they might set up in business again. They also showed incorrements signed by clinens in all lines of business attesting the good standing of the applicants.

"The saloons of these two firms are located a block apart." Sid Mr. Gregory, "and it might be safe to have two saloons in the neighborhood, if they are run by reputable men."

"I am afraid," suggested Mr. Ward, "that it would be impossible to find two reputable men operating salcons in that district."

"As to that," said Mayor Jones, "I can see the total base one of district."

"As to that," said Mayor Jones, "I can say that the Weber place has been one of the cicanest saloons in the city and these other men also come highly informed. To allow anybody who applies to open a saloon in that neighborhood would be folly but these are reputable parties."

Mr. Ward assented and the applications were granted.
